

I am a flight attendant at America West Airlines. I strongly disagree with allowing the use of mobile/cellular phones during flight onboard my aircraft.

There is no hard evidence that cell phone use doesn't interfere with navigational/communication devices. Cell phone use would enable terrorists to coordinate a plan of action more effectively. The NPRM would leave it up to flight attendants to police the use of cell phones onboard the aircraft compromising our ability to maintain a safe, secure cabin environment and to conduct emergency evacuations. It would make an already tense cabin environment even more stressful.

I've been working as a flight attendant for over 5 years and I pass traveled on my mom's airline, US Airways, from the time I was a child until I finished college...my experience has taught me that the concept of mobile/cellular phone use onboard is a very bad idea.

Please do not allow this, it's a huge mistake...
